- ✓ Learn business-building strategies that lead to better, more educated & prepared clients
- ✓ Experience the energy of like-minded professionals who are ready to reform divorce for the next generation

#### Event Purpose:

The Make Divorce Healthier Symposium started because after a generation of witnessing divorce horror stories- vicious custody battles, families torn apart, a retirement and legacy completely gone- we concluded that divorce does not need to be this nasty.

The best way to break this pattern is to bring together the brightest minds, the latest research, and the interdisciplinary setting needed to develop a new set of beliefs and expectations. With enough practitioners in this mindset, the majority of divorce cases can be settled privately - without court intervention.

We have come a long way, but we still need your support. Your generous contribution will help us create a culture of professionals who see themselves as the next generation of divorce- one which assumes that kindness, cooperation and respect are possible by providing the platform to start working together.
